

## Precision Servo 81 430

- Very quiet
- Very precise
- With accessories and mounting materials
- With 2 control wires 100 mm, Ø 0.4 mm
- and 1 control wire 100 mm, Ø 0.6 mm
- Dimensions 22.2 x 21.3 x 11.1 mm
- Torque 14 Ncm
- Power 4.8 V
- Max. Operating angle 90°

### Connections

orange - control signal, red - 5 V, brown - Earth

**Tip:** Quiet running of the working model can be improved by skillful bending of the control wire.

### Example Applications

The direct connection of water crane and servo axle makes a precise positioning at the stop possible.

The bent control wire provides for a quieter operation of the turnout.

An axial offset is possible if the control wires are bent.
